

Giovanna Cilfone

FRONTEND DEVELOPER

ABOUT ME

I am a front-end web developer with a strong passion for design. My interest in creating engaging and functional user experiences led me to specialize in UX/UI. I enjoy combining aesthetics and technology to build visually appealing and highly functional websites.

Although my level of English is intermediate, I am actively studying the language and believe that my technical knowledge will allow me to contribute effectively in any professional setting.

WORK EXPERIENCE

Front End Developer

99 MINUTOS | FEB 2022 - CURRENTLY

My work in the billing development area involves creating and iterating on user-centered interfaces, providing the finance department with an intuitive and easy-to-use interface that also offers all the necessary functionalities to manage, modify, and review customer and supplier data. Some of these functionalities include: search, filters, rate management, customer personal and tax information, report downloads, and more.

TECH SKILLS | SOFT SKILLS

- HTML - CSS
- JAVASCRIPT
- TYPESCRIPT
